Nervous Disorders.

What is more fearful than a breaking down of the nervous system? To be excitable or nervous in a small degree is most distressing, for where can a remedy be found? Here is one:—Drink but little wine, beer or spirits, or far better, abstain from them altogether; do not take coffee—weak tea is preferable; get all the fresh air you can; take three or four of these Pills every night; eat plenty of solids, and avoid the use of sweets. If these golden rules are followed, you will be happy in mind, strong in body, and forget you have any nerves.

NEW ADVERTISEMENTS THIS DAY

Notice—J. G. Shepherd.

The British Columbian.

NEW WESTMINSTER, THURSDAY, JUNE 22, 1865.

THE NAVIGATION OF THE LOWER FRASER.

Every winter the navigation between this city and Yale is interrupted for from six weeks to two months, owing to natural obstructions presented by Jeffrey's, Murderer's, and Emory's Bars, and at other stages of the water it is rendered somewhat difficult and hazardous by two large rocks, commonly known to navigators as "The Sisters." When it is considered that the navigation seaward is open all the year round, and that the towns in the interior can but ill afford to lay in a three months supply of provisions at a time, this obstruction to our commercial intercourse with the upper country is manifestly a serious question, and it becomes the bounden duty of the Government to inquire whether engineering skill and a reasonable expenditure of public money would not enable our light draught river steamers to reach Yale at the lowest stages of the water. From the best information upon the subject we are induced to believe that a very moderate sum of money applied with the most ordinary skill would suffice to accomplish this so-much-to-be-desired object. Commencing with "The Sisters," we are assured by a gentleman of considerable engineering experience that a few tons of powder ignited by means of a galvanic battery would remove the smaller one without much trouble, and that the whole operation would probably be covered by five or six thousand dollars. If this be anything like an approximation to the expense of removing one of these rocks how can the Government be justified in longer declining to undertake the work? These rocks, be it remembered, render navigation at that point both difficult and dangerous at high water, as well as at low. More than one of the river steamers have narrowly escaped destruction upon them; and at the highest stages of the water, destruction of a steamer upon one of these rock implies total loss of boat, cargo, crew, and passengers, as any one who has passed them at high water will readily admit. We next come to Emory's Bar, perhaps the greatest natural obstacle in the way of navigation to Yale, requiring, as it does, a terrific head of steam to carry boats over it at high water, while at the lowest stages it is an insuperable bar to navigation. Those of our readers who have travelled between here and Yale will recollect that a creek discharges a considerable volume of water into the Fraser on the north side at that particular point. It is from the large quantities of sand and gravel brought down and deposited by this mountain torrent that Emory's Bar has been formed and is maintained. To change the debouchure of this creek by making a cutting so as to bring it below Emory's Bar, and remove the boulders from the bar, thereby allowing the current to wash away the deposit, the whole difficulty would be got rid of, and the dreaded bar would cease to terrify the mariner, or endanger the lives and property of the people. That such would be the case we have the assurance of practical men, and the cost of the work is estimated under one thousand dollars. Of Murderer's and Jeffrey's Bars, let it suffice to say, generally, that two or three thousand dollars judiciously expended would render them navigable during low water; at least we have the authority of men possessing considerable experience in such matters for saying so. If these calculations be approximately correct, for a sum of less than ten thousand dollars the navigation to Yale can be made practicable at all stages of the water in ordinary seasons. It is surely, then, the duty of the Government to have this matter thoroughly investigated; and if it is found that the work we have indicated can be accomplished for anything like that sum it will become the imperative duty of the Government to have it done before another season passes over. The winter is the season during which the work would have to be done, and may we not hope that everything will be in readiness to submit it to a practical test during the approaching winter, so that the work may be completed before Spring? The stereotyped reply of "no funds" will not meet this case. What has become of the forty thousand dollars tonnage dues, collected expressly for the improvement of the navigation of the Lower Fraser? Surely it is not too much to ask that a fourth part of that shall be devoted towards the object for which it has been collected.

NOTICE TO MARINERS

ENTERING

FRASER RIVER.

ALL previous notices issued by the Harbour Master of British Columbia, having reference to the Sand Heads of Fraser River, are hereby rescinded.
The following directions are published for general information:

The Beacons carried away since last fall have been re-constructed, excepting the South Sand Head No. 1, and the following alterations and additions made. The Light Ship now building will be placed near the South Sand Head, being substituted for No. 1 Beacon. The Beacons are formed with clusters of piles, each Beacon having a distinguishing feature at the top of the piles, and being numbered consecutively from 2 to 10, irrespective of the Crib on the North Sand Head.

No. 2. BEACON, NORTH SAND HEAD—Placed in 1 foot at low water, a cable from the buoy in a N. W. direction, showing from a Southern bearing a black diamond elevated on a pole 16 feet above the top of the piles.

A 1 of a cable distant from No. 2 Beacon, farther on the Sand, is a loaded crib in an incomplete state at present; at high water spring tides it is washed, but at low water it looks like the hull of a small vessel. A pole 20 feet long with a black board at the top pointing to the Channel is secured to it. A permanent Sea Mark will be built upon it in the course of a few months, of which due notice shall be given.

No. 3. BEACON, NORTH SAND—In 6 feet at low water, shows black and white horizontal stripes both on the pole and beacon, and is situated about half-way between chequered and black buoys.

No. 4. BEACON, NORTH SAND—1 cable distant in a S. W. direction from black top buoy, is distinguished by a black triangle elevated on a white pole 16 feet above the piles, and placed in 2 feet at low water. The piles are white-washed.

No. 5. BEACON, NORTH SAND—On the spit 11 cable from red top buoy placed in 5 feet at low water. This beacon is remarkable from its leaning position and is readily distinguished by the red cask on a white pole above the piles, the tops of which are also white.

No. 6. BEACON, NORTH SAND—1 cable distant from white buoy in a Westerly direction, is placed in 7 feet at low water. On the top of the pole is a white triangle, the apex of which is on the lower part of the pole. The beacon forms a conspicuous object and must be appreciated, as it will guide Vessels in the Channel when entering and leaving the River. The beacon is all white.

No. 7. BEACON, SOUTH SAND—Is a black beacon placed in 6 feet at low water, having a St. Andrew's cross elevated on a pole 16 feet above the piles.

No. 8. BEACON, SOUTH SAND—A cable's length from No. 7, in 1 foot at low water. This Beacon is white, having a St. Andrew's cross on a pole as above described in No. 7. As these Beacons, No. 7 and 8, are intended as marks for crossing the Bar, they are hereafter alluded to as the X Beacons. This Beacon (No. 8) is not intended as a mark for vessels to lead Vessels over the Bar in the deepest water. For Vessels of large draught the X Beacons will be found invaluable, as by taking care to "port" sufficiently soon, after passing the black top buoy, so as to cross when in a line, they will lead over the Bar, carrying from 19 to 22 feet at high water Spring Tides. In all other parts of the Channel much deeper water will be found. After the red top Beacon is brought in a line with the white Beacon (No. 6), the red top buoy may be with safety rounded, then steer in direction for the white buoy, and from thence to the Ball Beacon on Garry Point.

No. 9. BEACON, SOUTH SAND—On the edge of the bank, placed in 1 foot at low water, is nearest to the Mouth of the River, and distinguished by a black pole having at the top two black boards of two sides of the pole horizontal with each other. The tops of the piles are also black.

No. 10. BEACON—Is a land mark placed on Garry Point to indicate the Mouth of the River, which shows from every direction a large White Hall. The beacon is 6 feet of the pole, and the tops of the piles are black. The lower part of the Beacon is white-washed.

All buoys on the North Sand, after entering the Channel with Vessels of large draught, should be passed close on the "port" hand. Caution is hereby given that the Beacons constructed on the Sand Heads are not intended as marks for the Navigable waters of the Channel but to indicate the locality of the several buoys.

The old white buoy has been removed and a red spar buoy placed on the spit of the middle Sand inside Garry Point, in 12 feet at low water, which must be past by Vessels Entering the River on the starboard hand. By following the above directions Mariners will find the Channel well and clearly defined, and with ordinary care a perfect stranger may navigate his Vessel with safety into Fraser River.

JAMES COOPER, Harbour Master, New Westminster, June 12th, 1865.

PUBLIC NOTICE.

SEALED TENDERS will be received at the Lands & Works Office, New Westminster, up to noon of Wednesday, 28th June, for cutting and clearing off from a width of 30 feet all Timber and Brush, along a line of Road to be exactly pointed out by the Chief Commissioner of Lands and Works, or his Agent, commencing at a point at Murderer's Bar, about 2 miles below Hope, and extending along the bank of Fraser River to Yale, being a distance of 16 miles, or thereabouts.

With each tender must be enclosed a Bond of the person tendering, and of two responsible sureties with him, for the payment to the Government of the sum of £500 conditional on the non-fulfilment by him of the terms of his tender, if accepted.

The lowest or any tender not necessarily accepted. Further particulars can be had by applying on, or after, Wednesday 21st June, at the Lands & Works Office, New Westminster, where the Specifications and form of Bond can be seen.

Tenders to be addressed to the Chief Commissioner of Lands & Works, and superscribed "Tenders for 30 feet Clearing from Murderer's Bar to Yale."

By Command, JOSEPH W. TRUTCH, Chief Commissioner of Lands & Works, and Surveyor-General. Lands & Works Department, June 16th, 1865.

SPECIAL DISPATCH TO THE "BRITISH COLUMBIAN."

News from the East.

ATLANTIC DATES TO 17th Inst.

European Dates to 28th May.

SAN FRANCISCO.—A destructive conflagration broke out last evening in J. R. Holmes & Co.'s hay loft, No. 26 and 28 market, at the intersection of Market, California and Sacramento streets. The following property was destroyed: Holmes & Co.'s hay depot, Rider & Somers hay loft, a restaurant, butcher's shop and cobbler's shop on Market street, J. R. Pennals lumber yard, filled with lumber, extending through from Market to Sacramento street. Saunders Hotel, the largest sailors' boarding house in the city, was also destroyed. A building occupied as a drinking saloon a tin store and a drug store, on Sacramento street, St. Valentines produce store, Robinson's shipjoiners shop, Henry Grier's grocery store, on Commercial street, John Parker's saloon, Offord's ship supply store, D. C. Platt's clothing store, James Montross' Saloon, Gustos cigar manufactory, D. Jacobs' tailor shop, and the offices of Wm. Bourne and J. D. Wice, agents of Victoria packets, sheds, &c., were destroyed. There were about 25 buildings consumed. Loss estimated at about 100,000 dollars.

This afternoon an Irishman, a laborer, name unknown, committed suicide on Front street by cutting his throat. The trial of M. C. Carby, of the Flag newspaper, on a charge of libelling Nesbit, of the Bulletin, was specially set for tomorrow.

Private advices from Lapas, June 7th, report the Indians so troublesome that communication between there and Prescott was dangerous even with military escort. Mr. Gray, who was in company with Cunningham at the time the latter was murdered, had a second narrow escape from a body of 75 Indians, who attacked him and his son near North Rome, killing one soldier and wounding another.

Legal tenders, 714 @ 12. The steamer *Sierra Nevada*, from Victoria, arrived yesterday. The *British Columbian*, Victoria, has been badly hoaxed with a bogus telegraph report, dated Washington, June 9th, purporting that Davis and Breckinridge were tried and convicted on the 8th and sentenced to be hung on the 9th. This report stopped just as the criminals were brought to the foot of the gallows. The "sell" probably originated with some person at New Westminster, between which town and Victoria a strong rivalry exists.

Flour, moderate jobbing trade, with some irregularity of sales, include extra at \$14 and Oregon country brands and re-sacked Chilli at \$12 per bbl. Wheat, no transactions. Oats, in demand; sales, 400 gannies Oregon black at 14 1/2, 300 sacks coast at 15.50, and 14 do. buy at 16 1/2. Barley, firm, in view of tight supplies for the market; sales, 500 bags old brewing, private, but an advance on previous prices, and 1000 at \$1 10 to \$1 15 per 100 lbs.

Hay sales very vigorous to-day at \$10.50 to \$12 per ton. Coffee, 150 bags Java sold at 25c. per lb. Domestic liquors dull and depressed.

Arrived, bark *John Gottfred*, 150 days from Rio Janeiro via Valparaiso; cargo, coffee.

Sailed, June 17th, steamer *Brother Jonathan*, Victoria and Portland; June 18th, ship *Iconium*, Puget Sound, ship *Helos*, Tekelet, bark *Australia*, Nanaimo, Italian bark *Grotino Badaracio*, Port Angeles.

PORTLAND, June 15.—The city election to-day passed off quietly, resulting in the complete success of the regular Union Ticket, to which there was no opposition, except for the offices of Recorder, Treasurer, Assessor, and Councilmen in the second ward.

SECOND DISPATCH.

CAIRO, June 11.—The steamers *Poland* and *Idaho* collided, sinking the *Poland*, with loss of 10 or 12 lives. Morgan, the rebel who last year shot Gen. Canby, has been arrested.

NEW YORK, June 12.—A dispatch dated Lexington, (Ky.,) 10th June, says reliable information has reached the friends of John C. Breckinridge at this place that he has arrived safe in Cuba. How he got there they refuse to say.

WASHINGTON, June 11.—Dispatches received at the State Department announce that the Government of Holland had formally rescinded the recognition of belligerent rights accorded to rebels. This is in response to appeals of this Government, addressed to all maritime powers. Holland was about the first great power which became our ally, after the revolutionary struggle, and now she has been the very first to retrace her steps, after having assumed a different position during the rebellion.

WASHINGTON, June 11.—The Russian Minister, Baron Stokkel, and the Spanish Minister, Mr. Vassan, waited on Mr. Seward yesterday afternoon at the State Department, to express in the name of their respective sovereigns the profound condolence and sympathy of the two great nations for the national loss sustained by the assassination of President Lincoln, and the dreadful sufferings of the family of the Secretary of State. They greeted Seward most cordially.

Boston, June 10.—The steamer *Admiral Dupont*, New York for Port Monroe, was run into on night of the 8th by the British ship *Steadfast* from Philadelphia for St. Johns, N. B. The steamer sank in ten minutes after collision. The *Steadfast* sustained considerable damage, and

ran ashore on Smith Point, Nantucket, where she remains in bad condition.

WASHINGTON, June 12.—Surgeon-General Wm. A. Hylan, Chief of the Bureau of Medical Surgery in the Navy Department, died last night after a protracted illness from disease of the heart.

NEW YORK, June 12.—The *Times* special from Chattanooga, June 10th, says a tremendous explosion and fire occurred on the evening of the 9th, supposed to have been caused through carelessness. Sparks from a locomotive ignited loose powder in the ordnance department, and exploded several tons of fixed ammunition and loose powder. Shot and shell were sent hissing about town. Many were killed and wounded. The immense quartermaster buildings took fire. Loss, quarter of a million dollars. The railroad is nearly completed to Atlanta. Prominent rebels are being arrested in Lower Georgia.

NEW YORK, June 12.—The *Courier* claims to have intelligence that the town of Chihuahua, which has for sometime been the seat of the Republican Government of Mexico, has been occupied by the French general Acom, and that Juarez is on his way to the United States. No such news was received from Havana yesterday.

HALIFAX, June 17.—The *Africa*, Liverpool 25th, Queenstown 28th, has arrived. In the House of Commons on the 26th, Welsh asked Lord Palmerston whether the Government intended to comply with the official demand for compensation to American subjects for losses sustained by the *Alabama*, or any other Confederate cruiser alleged to have been fitted out in British ports. Palmerston said a correspondence had been going on for some time between the two governments on prizes taken by the *Alabama* and other vessels of the same kind. Within the last few days further correspondence through Mr. Adams had been received, but there had not been time to reply to it.

He might add that from the manner in which each Government had stated their views upon nice questions of international law the most friendly terms existed. Baxter asked Palmerston whether, in looking at the changed aspect of affairs in America, Her Majesty's Government, either separately, or in conjunction, with the United States Government, would consider the propriety of sending a squadron to the coast of Cuba, for the purpose of putting a stop to the slave trade. Lord Palmerston said the U. S. Government had invited us to participate in its measures on the west coast of Africa, but difference arose on account of neutrality and belligerent rights which could not be overcome; but in the present altered state of things he thought negotiations might be renewed.

Her Majesty's Government, said Lord Palmerston, in continuance of his reply to Mr. Baxter in the House of Commons, had made renewed application to the U. S. Government, stating that their cruiser employed in that service would be treated with every privilege and courtesy which belonged to friendly nations, and that former difficulties no longer existed. No representation has been made as to co-operation off the Cuban coast, but if they assented to co-operation on the African coast he had no doubt they would also cordially co-operate on the coast of Cuba.

A private telegram from New York to-day quotes gold opened this morning at \$138 1/2. Flour: unsettled, with a fair jobbing business, at irregular prices, flour from new wheat is offering, but old had the preference, reported sales of new \$11.50 and \$12, per barrel. Wheat: a lot of 242 sacks, new crop, was placed at 23c. per lb., barley sales 200 sacks new \$1 20, 100 do. feed \$1 15 and 5000 sacks new do. to arrive \$1, per 100 lbs., the buyers returning sacks. Oats: sales 625 sacks in 2 lots, at \$1.75 @ \$1.62 1/2, 150 do., choice, \$1.75, per 100 lbs. Hay: sales by cargo \$10 to \$12 per ton. The latter a full price. Potatoes: new, are coming forward freely and the market is scarcely so firm, sales reported 4c. @ 4 1/2 cts. per lb. Wool: sales 1000, Oregon, per *Sierra Nevada* at or about 25 cents a pound. Coffee: sales Costa Rica 22c. Dried Apples, 200 half-barrels are reported sold at 10 1/2c. per lb. Stock light and concentrated; higher prices generally reign.

Sailed on the 20th the ship *Shamrock*, for Port Angeles. Cleared, str. *Deli Norte*, Crescent City. SAN FRANCISCO, June 20.—The long pending indictment against the Pacific Anatomical Museum, is on trial to-day. A number of physicians including Dr. McCormack, Medical Director of the Department of the Pacific, testified that in their opinion such institutions were productive of good, and had done no injury. The Irishman who committed suicide yesterday, was Peter McDougal, from Victoria, Assistant Engineer of the British war steamer *Sutley*. F. A. Brady, proprietor of the *Monitor*, petitioned the Board of Supervisors to pay \$7,500 damages, for the destruction of his institution on 15th April. Stocks active to-day. Savage rose to 17 00 closing at 14.50. Yellow Jacket fell to 10 60 closing at 11 85 @ 11 75. Cholar 475. Legal Tenders closed at 73 @ 73 1/2.

THIRD DISPATCH.

CAIRO, June 12.—New Orleans advices of the 4th state that an important clue to the cause of the late disastrous explosion at Mobile it is thought has been obtained. A man named Wall has been arrested at Mobile, charged with being implicated. He states that he and two other men on the night previous to the explosion placed a torch between buildings containing powder, and that the work was prearranged under the direction of a rebel Major, who threatened them with instant death if they disobeyed or offered any resistance, and that the Major afterwards lighted the fuse of the shell connected with the infernal machine. Torpedoes were also discovered in rooms of the Custom House, so arranged as to explode on opening of doors. Others were found concealed in desks of the same building.

Gen. Warren has resigned his commission as Major-General of Volunteers, and has been succeeded in command of Vicksburg by Gen. Osterhaus.

NEW YORK, June 11.—The *Herald's* Richmond and Petersburg dispatches show a rapid reviving of business in those places. Great progress has been made towards re-establishing the civil Government throughout Virginia, under the auspices of Governor Pierpont. The authorities as fast as practicable and politics are turning over State property to the charge of the new administration, and in much better condition than was feared when it fell into their hands.

WASHINGTON, June 11.—News from Acapulco, dated May 9th, embraces the following intelligence, which was suppressed in dispatches sent through French sources from Havana. Gen. Regales, with part of the first division of the central national army of Mexico, attacked the city of Hualco, state of Michoacan, on 11th April, and took it by storm, capturing all the garrison, including 200 Belgians, with ammunition and artillery.

A few days before the national forces captured a train with supplies and ammunition on the way from Moravia to Patzcuara, and defeated the French forces at Patzcuara and Loscoy. Corle had taken the field.

NEW YORK, June 11.—New Orleans correspondent of the *Herald* says it is estimated that the total amount of cotton secured in East Mississippi is 100,000 bales, two thirds of which is in Arkansas. Pierre Soule is in Mexico. Ex-Gov. Moore was arrested at Mobile and sent to Washington. Gen. Sheridan has issued orders forbidding military interference with the shipment of cotton. The steamer *Glen Troup*, for Savannah with a cargo of cotton, took fire a few miles below Augusta. The whole cargo and baggage were lost. Four (4) of the passengers, who were mostly negroes, were drowned. Gen. Molinsaux has ordered the school and teachers of Augusta to take the oath of allegiance. Orders have been sent by the authorities of Augusta for a supply of school books for free schools, to be at once opened for all classes. All restrictions on trade are removed by Gen. Gilmore and Grover in their respective departments.

WASHINGTON, June 11.—The Navy Department has the following from New Orleans: May 31st.—A dispatch, dated May 25th, has just been received from Capt. Sands, reporting the evacuation of the forts and States to the rebel army. With regard to rebel naval forces in Texas, I am assured by Confederate Lieut. Commanding Jonathan Carter, who is now here, and declares himself to be senior naval officer, and that there is no naval property nor any officers in Texas on the seaboard, and that the only vessel in Red River is the ram *Missouri*, which will be surrendered to the commander of the Mississippi squadron.

THATCHER, Acting Rear-Admiral. The Navy Department has also received news of the destruction of the famous blockade runner *Denby*, on the 24th May, off Galveston, by the U. S. steamer *Port Jackson*, and also of a schooner called *Campa*, used as a guard boat, by a boat from U. S. steamer *Cornwall*.

FATAL COLLISION AT SEA!

ONE STEAMER SUNK AND THE OTHER SERIOUSLY INJURED.

The Victoria papers give an account of a marine accident of a somewhat serious character, which took place outside the harbor on Monday night, resulting in the sinking of the Vancouver Coal Mining Company's trim little iron str. *Fideliter*, and so seriously injuring the stern-wheel str. *Alexandra* that she was with some difficulty run ashore to keep her from sinking. It appears that the former steamer was Victoria bound with a large cargo of produce &c., and 25 passengers, while the latter had just left Victoria for this place with 75 passengers, 600 sheep and other stock. They came in collision off Clover Point, about 400 yards from land, the *Alexandra* striking the *Fideliter*, stem on, abreast the foremast, cutting right into her and sinking her almost immediately. We are happy to say that the passengers were all saved, but the cargo was lost, the boat going down in 2 1/2 fathoms water. The *Alexandra* was much injured, and would probably have sunk had it not been for her compartments. As it was she barely succeeded in getting on the beach at Lang's ship-yard, inside the harbor. Her passengers and cargo were uninjured. The *Fideliter* was an iron steamer. It is hoped she may be got up and repaired.

A HIGH-TONED LEGISLATURE.—Another of those disgraceful scenes for which the Legislative Assembly of the neighboring colony has recently become so famous was enacted by that body on Friday last. In seconding a motion for a return of the attendance of members, Dr. Powell took occasion to allude to a paragraph in the *Colonist* in which he was charged with neglecting his legislative duties in order to attend to his private interests, a charge which he characterized as "false and base," and, amidst much confusion and loud cries of order, he proceeded to animadvert, in very severe terms, upon the conduct of the junior member for Victoria, who sat in the House as a member and then went to his editorial chair to perpetrate such calumnies upon members, declaring himself prepared to stand by his remarks either in the House or outside. This, his remarks either in the House or outside. This, his remarks either in the House or outside. This, his remarks either in the House or outside.

FROM VICTORIA.—The str. *Enterprise*, Capt. Swanson, came in from Victoria on Tuesday evening, with freight and a large number of passengers, mostly Chinamen. Capt. Swanson for the present relieves Capt. Mount, who will proceed to Kamloops next week for the purpose of superintending the building of the H. B. Co.'s steamer to run on Kamloops and Shuswap Lakes, the new route to Kootenay.

FOR DOUGLAS.—The steamer *Hope*, Capt. Dodge, sailed for Douglas yesterday, with freight and passengers.

QUICK AS LIGHTNING.—A message was dispatched to Montreal, Canada, from the telegraph office in this city at 3.30 p. m. yesterday, to which an answer was received at 7.30—just four hours to Montreal and back!

FOR YALE.—The steamer *Reliance*, Capt. Irving, sailed for Hope and Yale yesterday at 2 o'clock, carrying forward a large freight and about 150 passengers, mostly Chinamen. The steamer *Lilloet*, Capt. Fleming, sailed for the same place a few hours later, with passengers and freight.

FOR THE NORTH-WEST COAST.—The schooner *North Star* arrived yesterday, to clear for the North-west Coast, whither she goes on a trading cruise.

LOCAL IMPROVEMENT.—We were surprised when passing down Columbia-street yesterday to notice the fine display of new goods at the store of Messrs. Clute & Major, and upon closer inspection we found they were selling Dry Goods, Clothing, Boots, Shoes, &c., at lower rates than we have ever before seen in this city. Truly this is a local improvement.

To the Editor of the British Columbian.

SIR,—Another letter appeared in your last issue from "Caustic" which is well worthy of personal notice. If it emanates, as I suppose, from the so-called Brass Band of B. C., certainly a more blackguard production could not well have been penned; and I can safely say to those abroad that the language is not that generally in use by the officials of this colony, but an exception rather than the rule. "Caustic" still refuses to give his name and cowardly shelters himself under an assumed one.

I can assert that what he states is again untrue. His words in his first letter can be seen by referring to the paper of the 13th. In it he charges me with making an attack upon Captain Ball. This I deny, and state in my reply that I simply answered a question that was asked me at Douglas, to the best of my recollection at the time. I also beg now to state that I fully acknowledge Capt. Ball to be one of the best members of the Legislative Council, and so powerful was his voice on the 23rd January that not only did he control Government but even got one elected member, the Hon. Mr. Walkem, to support him, who spoke against our district, and so prevented an advertisement being put in the *Government Gazette* to see what the improvement of Harrison Rapids would cost. I send papers of the 23rd January, which I have been fortunate enough to procure, to the district so that the debate may be seen, and I court the greatest publicity to all I did in the Legislative Council during the last session.

I can tell "Caustic" that the people of my district do not elect a man to place him in a position, but because he has time to do their work, and they demand from his hands a full account of his labors at the close of each session, so that they may give their assent or otherwise. This I have done during the last two sessions, and it enables parties to say whether they are properly represented or not. On both occasions I have received their full approval. If doing my duty to myself I represent is being an "egotist" I am one, and my constituents may rest satisfied that no amount of abuse will turn me from advocating their interests to the best of my ability, getting them aid and justice on all occasions, and rendering them a full account of what is done and how I have succeeded.

The time has now arrived, I consider, for the formation of a mutual protection association to keep each party as "Caustic" and his set in order, and prevent them betraying the colony. Remember what the "Reform League" did in 1859. Let us all remain united and we need fear nothing. The attack of "Caustic" upon me is the commencement of a war—an endeavor to prevent me from further addressing those I represent, as well as to injure and lower me in their estimation. However, it will not succeed. "Caustic" has lost his temper, descended to personal abuse, and so given us the victory, so far.

Let us remain united and we will carry our point yet, and, I hope, render all assistance to form the association I have referred to. We will require to agitate both in this country and in England to prevent our colony being ruined and our property destroyed through the machinations of "Caustic" and his party.

400,000 FEET

SEASON'D LUMBER

Rough & Dressed, For Sale By

J. A. R. HOMER.

New Westminster, November 3, 1864. no1tc

FAMILY

GROCERIES AND PROVISIONS.

THE SUBSCRIBER would in-
vite the attention of his
numerous customers, and
the public generally, to his
varied and choice stock of
Family Groceries, Provi-
sions and Oilman's Stores,
&c., &c., &c.

To THOSE whose liberal
patronage he has enjoyed
during the past two years
it is unnecessary to say
more than merely assure
them of his determination
to keep pace with the times,
both as regards prices and
assortment.

To THE general public he
would say: If you desire
to combine entire satisfac-
tion with economy, do not
go past the subscriber's new
Store, two doors west
of the old stand.

In Stock—A superior arti-
cle of Smoked Salmon from
Annandale's fishery, Mud
Bay.

JOHN MURRAY.

BURRARD INLET

LUMBER MILLS.

S. P. MOODY & CO., --- Proprietors,

New Westminster.

AGENTS IN VICTORIA:

FICKETT & CO., --- Wharf-street.

THESE MILLS are prepared to furnish cargoes of
T. FIR, SPRUCE and CEDAR LUMBER, Tongued
and Grooved Flooring, Spars, Piles, Shingles, Laths
and Pickets at the shortest notice.

The access to the Mills is up the Gulf of Georgia to
English Bay; thence up the Inlet. The anchorage in
the bay is safe in all weather. The Inlet is perfectly
land-locked, with plenty of water at all times for the
largest class vessels.

Vessels loading at these Mills will have every facility
for loading. The quality of Lumber is superior to any
on the Pacific Coast, and can be furnished to any length
up to 80 feet. There is a Deputy Collector at the Mills
to enter and clear vessels.

For further particulars inquire of the Agents.

ALL CURES MADE EASY!!

HOLLOWAY'S OINTMENT.

**Bad Legs, Ulcerous Sores, Bad
Breasts and Old Wounds.**

No description of wound, sore, or ulcer can resist the
healing properties of this excellent Ointment. The
worst cases readily assume a healthy appearance when
ever this medicament is applied; sound flesh springs
up from the bottom of the wound, inflammation of the
surrounding skin is arrested, and a complete and per-
manent cure quickly follows the use of the Ointment.

Piles, Fistulas and Internal Inflam-

mation.

These distressing and weakening diseases may with
certainty be cured by the sufferers themselves, if they
will use Holloway's Ointment, and closely attend to the
printed instructions. It should be well rubbed upon
the neighbouring parts, when all obnoxious matter will
be removed. A poultice of bread and water may some-
times be applied at bed time with advantage; and most
scrupulous cleanliness must be observed. If those who
read this paragraph will bring it under the notice of
such of their acquaintances whom it may concern, they
will render a service that will never be forgotten, as a
cure is certain.

Rheumatism, Gout & Neuralgia.

Nothing has the power of reducing inflammation and
subduing pain in these complaints in the same degree
as Holloway's cooling Ointment and purifying Pills.
When used simultaneously they drive all inflammation
and depravities from the system, subdue and remove
all enlargement of the joints, and leave the sinews and
muscles lax and uncontracted. A cure may always be
effected, even under the worst circumstances, if the use
of these medicines be persevered in.

**Eruptions, Scald Head, Ringworm &
other Skin Diseases.**

After fomentation with warm water, utmost relief and
speediest cure can be readily obtained in all complaints
affecting the skin and joints, by the simultaneous use of
the Ointment and Pills. But it must be remembered
that nearly all skin diseases indicate the depravity of
the blood and derangement of the liver and stomach,
consequently, in many cases, time is required to purify
the blood; which will be effected by a judicious use of
the Pills. The general health will be readily improved,
although the eruption may be driven out more freely
than before, and which should not be promoted; per-
severance is necessary.

**Sore Throats, Diphtheria, Quinsey,
Mumps & all other Derangements
of the Throat.**

On the appearance of any of these maladies the Oint-
ment should be well rubbed at least three times a day
upon the neck and upper part of the chest, so as to
penetrate to the glands, as salt is forced into meat;
this course will at once remove inflammation and ulcer-
ation. The worst cases will yield to this treatment by
following the printed directions.

**Scrofula or King's Evil and Swelling
of the Glands.**

This class of cases may be cured by Holloway's puri-
fying Pills and Ointment, as their double action of puri-
fying the blood and strengthening the system renders
them more suitable than any other remedy for all com-
plaints of a scrofulous nature. As the blood is impure
the liver, stomach and bowels, being much deranged,
require purifying medicine to bring about a cure.

Both the Ointment and Pills should be used in the following

cases:—
Bad Legs. Chapped Hands. Scalds.
Bad Breasts. Contracted and Sore Nipples.
Burns. Stiff Joints. Sore-throats.
Bunions. Elephantiasis. Skin-diseases.
Bite of Mosquitoes. Fistulas. Scurvy.
X and Sea-Fevers. Glands. Tumors.
Coco-bay. Glands. Ulcers.
Chigo-foot. Rings. Wounds.
Corns (soft). Lumbago. Yaws.
Cancers. Piles. Rheumatism.
Chilblains.

Sold at the establishment of PROFESSOR HOLLOWAY
244, Strand, (near Temple Bar) London; and by all re-
spectable Druggists and Dealers in Medicines through-
out the civilized world, at the following prices:—1s.
1d., 2s., 4s., 6d., 11s., 22s., and 33s. each Pot.

* There is a considerable saving by taking the
larger sizes.

N. B.—Directions for the guidance of patients in
every disorder are affixed to each Pot. au15
